

Sdgnss

Use:

Wagon for intermodal transport with demountable basket is intended to carry road semi-trailers, and suitable to carry containers and replaceable superstructures. It is fitted with fixing elements.

Wagon series	Sdgns	
Digit interval	4506	
Construction group	55	
Interoperability	31	
Number of axles	4	
Bogie type	Y 25	
Wagon length over the buffers	19,740 m	
Wagon tare	with basket 26,500 t	without basket 22,000 t
Loading capacity	with basket	without basket
A	37,50 t	41,80 t
B	45,50 t	49,80 t
C	55,50 (53,50) t	59,80 (57,80) t
(speed 120 km/h) D	63,50 (53,50) t	67,80 (57,80) t
Loading length for containers and swap bodies	18,500 m	
Loading length of basket floor (without wedges)	8,778 m	
Loading width of basket floor	2,598 m	
Maximum height of loading surface for containers and swap-bodies measured from USR	1,175 m	
Distance between loading surface and USR for road semi-trailer load purposes	0,325 m	
Axle base / pivot pins distance	14,200 m	
Note runs the curve with minimum radius	75 m
