

Tdgsns - Four-wheel hopper wagon of special construction

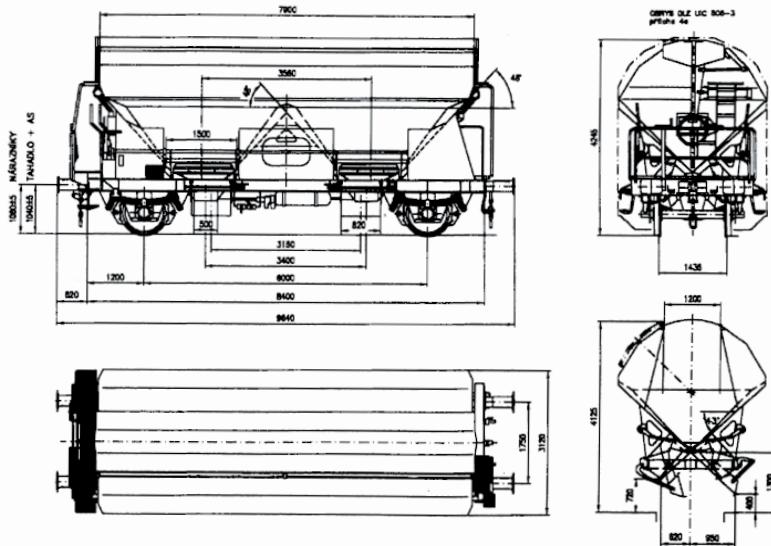

Tdgsns

Use:

Wagon of special construction with opening roof is intended to carry agricultural products (grain, seeds, kernel, etc.) requiring weather protection. The wagon construction enables double-sided gravity discharge.

Wagon technical parameters

Wagon series		TdgnS
Digit interval		0147
Construction group		12
Interoperability		21
Number of axles		2
Wagon tare		14,50 t
Wagon length over the buffers		9,64 m
Loading capacity	A	17,50 t
	B	21,50 t
	C	25,50 t
	D	30,50 t
Distance between floor and USR		-
Loading volume		38,00 m ³
Axle base / pivot pins distance		6,00 m
Roof aperture	length	7,90 m
	width	1,20 m
Unloading apertures	number	2 + 2
	width	0,82 m
	distance from USR	0,72 m
Note		hopper wagon for grain
